

## JACKPOT ROULETTE ®

*“World's first progressive no coin-in mystery Jackpot on roulette that attracts new players and increases tips and revenues through free prizes and more spins.”*

### What do other casinos give away?

The type of prizes that casinos give away only depends on the imagination of the casino GM. Next to progressive mystery money prizes, casinos have the option to give away up to 20 different types of marketing prizes; some paid by the casino and some sponsored by the companies supplying them.

In order to give new and existing Jackpot Roulette users an impression of what they can give away and how to set-up their Jackpot Roulette system, we're giving here some examples.

### JASMINE COURT CASINO - CYPRUS

Jasmine court casino has installed 1 major Jackpot. Start-out value of US\$ 4,000 with a scheduled payout at US\$ 6,000 every 7-8 weeks. Next to this they have installed many small and bigger marketing prizes of which you see an overview here under. To promote the system even more, they display the Jackpot Roulette system behind the table on a huge plasma screen and they've made flyers... A good way to go...

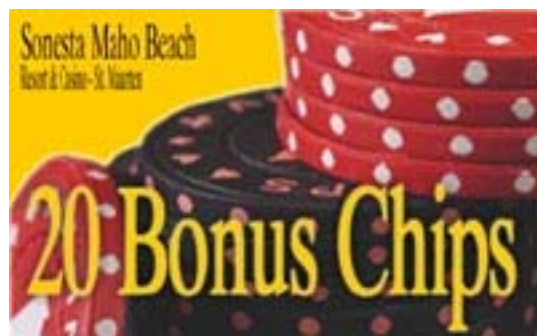

**MAHO BEACH RESORT & CASINO – ST. MAARTEN**

In February 2006 Maho started with the Jackpot Roulette system. Their initial installation was a stack of bonus chips and some marketing prizes like hotel accommodation for 1 week. The requirement for this, however, is to be with US\$ 10 straight up.

**CASINO SOPRON - HUNGARY**

Casino Sopron in Hungary started with the Jackpot Roulette system in October of 2005. Since then they have been giving away multiple different types of prizes ranging from stacks of bonus chips to cocktails, money prizes and even the so called 'Joker Chip'. When the Joker Chip is placed on the winning number, the payout will be multiplied by 100x.
